Helping our clients transform into **AI Enhanced** businesses

Who are Neural Vibe ?

Neural Vibe is a rapidly expanding consultancy specializing in helping clients transform into an **AI Enhanced** business, with a strong focus on Compliance, Certification and Accreditation, Strategy and Risk, Planning, Implementation and Regulatory Affairs.

Although we are a new company, our team has years of combined experience in helping clients manage transformative change in their businesses, industries, and customer expectations.

At Neural Vibe, we help our clients identify AI technologies that offer them the greatest advantages, helping to seamlessly integrate them into their operations, service lines, and product portfolios. Our approach ensures strict compliance with **regulatory requirements**, aligning with **industry best practices** and **international standards**.

Why choose **Neural Vibe** as your trusted partner ?

Choosing Neural Vibe means partnering with a team dedicated to transforming your business into an **AI-enhanced powerhouse**. We combine expertise, tailored services, and a client-centric approach to help you tackle the unique challenges of the AI age.

Our team of seasoned professionals brings years of experience in technology focused Governance, Risk, and Compliance (GRC), applying this knowledge to emerging AI opportunities to ensure our clients benefit from the latest insights and advancements. Leveraging our experience and extensive network to help you identify cutting-edge technologies that deliver solutions that keep you competitive. With our support across four key service lines - **Regulatory Affairs & Market Access, ISO Certifications, AI Planning and Implementation, and AI Governance and Ethics**, we offer the support you need to make Neural Vibe your trusted partner

Choose Neural Vibe as your **Trusted** partner

Ethics - Regulation - Governance

Regulatory Affairs & Market Access

Regulatory Resources	Roadmaps & Planning	Medical Devices	Privacy & Security
Market Access	Audit & Inspection	Artificial Intelligence	Health & Social Care

Governance & Ethics

AI Impact Assessments	Impact Mitigation Planning	AI Ethics Committees	
Transparency & Explainability	AI Bias Detection & Mitigation	Ethics Compliance Audits	Governance Framework Implementation

Developer - Deployer - User

ISO Certification

ISO 27001 ISMS	ISO 42001 AIMS	System Manager	System Implementation	Internal Audit
ISO 13485 QMS	ISO 9001 QMS	Surveillance Visits	Gap Analysis	Certification Audit

AI Planning & Implementation

AI Strategy Development	Implementation Roadmap	Detailed Planning and Delivery	
Market Insights	Custom AI Sourcing	Solution Piloting	Solution Scaling

Partnering with Neural Vibe for your ISO compliance means leveraging our extensive expertise and client-centric approach to achieve and maintain the highest standards of quality, security, and compliance.

Our ISO Certification services encompass the comprehensive implementation and seamless integration of key management systems, as well as their certification and ongoing compliance.

Our services include:

- **Gap Analysis:** Identifying areas for improvement to ensure your management systems meet ISO standards.
- **Internal Audits:** Conducting thorough internal audits to prepare your organization for certification.
- **Representation at Certification Audits and Surveillance Visits:** Acting on your behalf during certification audits and surveillance visits to ensure successful outcomes.
- **System Management:** Providing system managers if needed to oversee and maintain your management systems.
- **Management System Design, Implementation, and Evidencing:** Designing, implementing, and providing evidence for robust management systems tailored to your organization's needs.

By partnering with Neural Vibe, you are choosing a team with multi-domain expertise and experience, including [Medical Devices](#), [Cybersecurity](#), [Artificial Intelligence](#), [Data Privacy](#), and more.

Our extensive services portfolio includes [Compliance Gap Analysis](#), [Regulatory Strategies and Roadmaps](#), [Pre-Market Submissions](#), [Post-Market Surveillance](#), and **Human Resource** provision, ensuring that all your regulatory affairs needs are addressed.

We support regulatory compliance and market access in Australia, Brazil, China, Canada, the EU, India, Japan, the UK, and the US, either with in-house resources or through local specialist partners in the target market. Our services include:

- Providing clients with access to expert regulatory resources to navigate complex requirements.
- Developing comprehensive regulatory roadmaps and plans to guide your compliance efforts.
- Ensuring your products meet the necessary market access requirements for smooth entry into target markets.
- Performing thorough audits to ensure ongoing compliance and identify areas for improvement.

Regulatory Affairs & Market Access

Governance & Ethics

Partnering with Neural Vibe means leveraging our multi-domain expertise and global perspective to thoroughly understand and **address complex ethical and regulatory requirements**. Our approach ensures that your AI initiatives are not only ethically sound but also fully compliant with the latest regulations and standards. We prioritize respecting evolving cultural and social norms, ensuring that your AI solutions are both responsible and forward-thinking.

Our services include:

- helping establish a robust **ethical framework** for your AI initiatives, ensuring that ethical considerations are integrated from the outset.
- setting up and managing ethics committees to oversee and govern AI projects, ensuring continuous ethical compliance.
- identifying and addressing gaps in your AI governance, ensuring alignment with best practices and regulatory standards.
- conducting detailed assessments to evaluate the potential impacts of your AI systems, ensuring **compliance with ISO 42001** and other relevant standards.
- developing comprehensive plans to mitigate any identified risks, ensuring that your AI systems operate safely applying **appropriate guardrails**.
- ensuring that your AI models are **transparent and explainable**, fostering trust and understanding among stakeholders.
- undertake exercises to detect and mitigate biases in your AI systems, promoting **demonstrable fairness and equity**.
